PSBT25

Waterproof Bluetooth Speaker & Hands-free Speakerphone

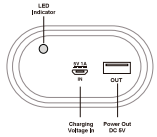
1. Introduction

Thank you for purchasing the PSBT25 Waterproof Bluetooth Speaker, a versatile piece of technology that extends the usefulness of many solid-state music players and cell phones. You now have the convenience of listening to your music or using your cell phone in a wet location. Use it when showering, taking a bath or relaxing in a sauna- while keeping your Bluetooth device safe and dry. Please be aware that although for use in wet locations, it cannot be immersed in water.
The Waterproof Bluetooth Speaker features an integral hook for hanging the speaker from a standard shower head, a front panel consisting of seven waterproof membrane switches and two water-sealed speakers.

2. Charging the Battery

Before using this product, charge the internal battery for 4-hours using the included USB charging cable.
To do so...

1) On the back of the speaker, you'll find a watertight seal which protects two electrical power ports. Insert a fingernail at the bottom of the seal and lift upward.(see Power Panel image below).

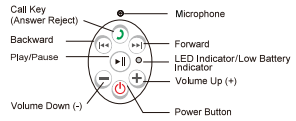


Power Panel

2) Connect the USB charging cable into the power input receptacle labeled "IN 5V" located in the center of the Power Panel.
3) An LED Indicator will be Red during charging and Green when the battery is fully charged.
4) After charging, remove the charging cable and reseal the protective cover.

3.Powering On and Off

1) To turn on, press and hold the Power Button (See Control Panel image below) for 3 seconds. A tone will sound and both Red and Blue LEDs will turn on.



Control Panel

2) To turn off, press and hold the Power Button for 3 seconds. A tone will sound and both LEDs will turn off.
3) The speaker system will shut off automatically after being idle for 10 minutes without pairing.
4) Please charge the speaker when the low battery indicator flashes in red.

4. Pairing with a Bluetooth-Enabled Device

Please read the full instructions below carefully before pairing your device with the Speaker.

1) Pressing and holding the Power Button for 3 seconds, you will hear a beeping sound and the LED Indicator on the Control Panel will then flash blue and red. It is now in pairing mode and ready to pair with your device.
2) Make sure that the Bluetooth is turned "ON" on your music device/phone. Scan for a Bluetooth source on your music device/phone.
3) The speaker will appear on your music device/phone by its name "GATOR SOUND".
4) Select the "GATOR SOUND" device in most cases it will now connect and pair automatically; if you are prompted for a password, enter 1234.
5) Within a few seconds, the connection will be complete and the LED Indicator will blink blue every 5 seconds.
6) Short press Power Button to reset bluetooth pairing, in any case if you need to pair another bluetooth device/phone.
7) After initial pairing, PSBT25 will connect with the Bluetooth device automatically when you turn on speaker.

5. Listening to Music

Once the speaker has been successfully paired to your music device, you can listen to music by using the **Play/Pause, Volume Up/Down, and Forward-Next/Back-Previous** membrane buttons located on the Control Panel.

6. Using as a Speakerphone

Receive: To receive an incoming call, press and release the Call Key .

Reject: To reject an incoming call, press and hold the Call Key for 1 second.
Hold: To place an active call on hold, press and hold the Backward Button for 1 second. Repeat to resume call.
Transfer: To transfer a call from the speaker to your phone, press and hold the Forward Button for 1 second.
Redial: To redial a number, press and hold the Call Key for 1 second.
Voice dialing: If your phone has a voice dialing feature, you can access voice dial from the speaker by pressing and releasing the Call Button to access voice dial.
